Disclaimers: The smart contract is audited at the request of its creator. The Xaud Institute reviews the project to make sure there is no Backdoor in the smart contract. You are responsible for the investment and this institution does not accept any responsibility. But we guarantee the project is of very high quality and has no backdoor. We register all audited contracts in the TRON network, which can be inquired through digital signatures and TRONSCAN.

Digital signature: (Registered in the blockchain network)

Click on the signature (Transaction Hash). On the TRONSCAN page, in the Method Calling section, you will see the name of the audited smart contract.
